

September, 2019

Dear Parents,

Welcome back to another year of learning, growing, and challenging the mind of your child. I am looking forward to a productive partnership with you to insure that my students can achieve their highest potential. I recognize that in order to be successful in school my students need support both from school and home. As partners, we share the responsibility for our student's success and want you to know that I will do my very best to carry out this task. I ask that you guide your child's learning by ensuring that he/she:

- 1) Attend school daily and arrive on time, ready for the day's learning experience.
- 2) Completes all homework assignments.
- 3) Shares school experiences with you so that you are aware of his/her school life.
- 4) Knows what you expect of him/her to succeed in school and go on to High School.
- 5) Understand the guidelines set forth in the Student Handbook.

Some important things that you need to know for Math:

- 1) Homework will be given on a regular basis.
- 2) Tests will be given 4-5 times a trimester.
- 3) Quizzes will be given 5-7 times a trimester.
- 4) All homework and other assignments will be on google calendar

The breakdown of grades is as follows:

Math-Tests- 65%

Quizzes- 20%

Projects- 5%

Homework- 5%

Class work- 5%

Religion-Tests-60%

Homework-20%

Writing-10%

Participation-10%

The curriculum for Math in 7th and 8th grade is challenging and requires the students to work to their full potential. I truly believe that everyone of my students has the ability to understand and conquer the math topics that are put before them.
